

Bufo*ri* CS8

Art meets Performance

"Your living is determined not so much by what life brings to you as by the attitude you bring to life; not so much by what happens to you as by the way your mind looks at what happens."

Khalil Gibran, Lebanese-American writer, poet, artist (1883 -1931)

THE DAWN OF A NEW ERA

Born from a relentless desire to merge artistry with raw power, the Bufori CS8 is a bold expression of performance and individuality. Its muscular stance and flowing lines pay homage to Bufori's timeless heritage, while embracing cutting-edge technology and engineering excellence.

Every CS8 is hand-built with passion and precision, crafted to deliver not only breathtaking performance but also a deeply personal connection between driver and machine.

Today, we present the next chapter in the Bufori story: the exhilarating Bufori CS8.

Gerry Khouri

Founder and Managing Director of Bufori

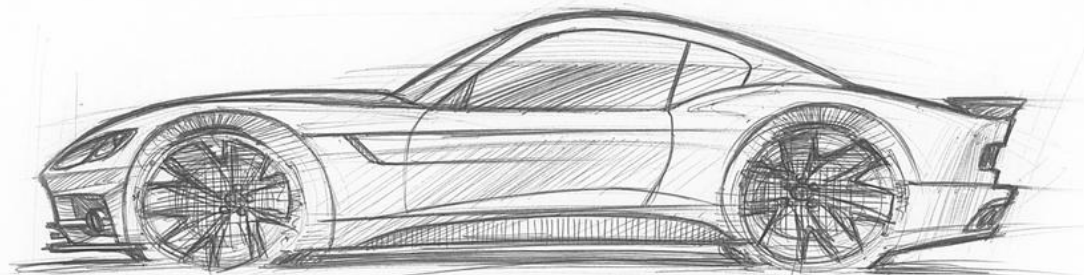

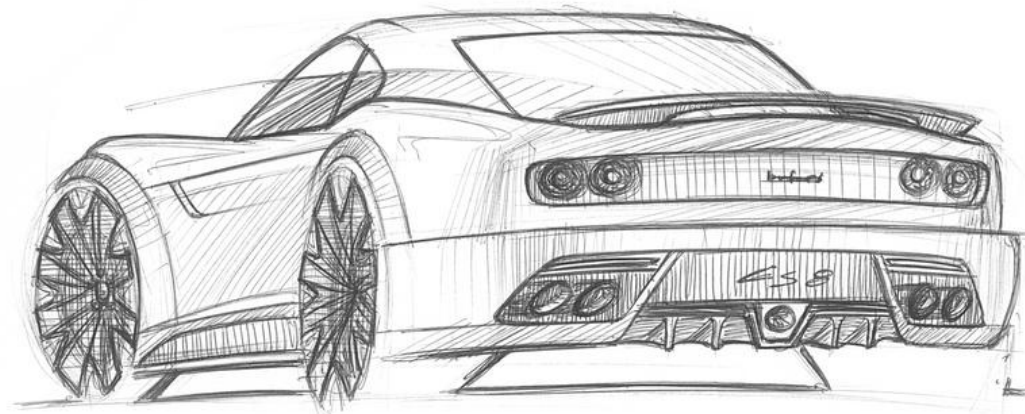

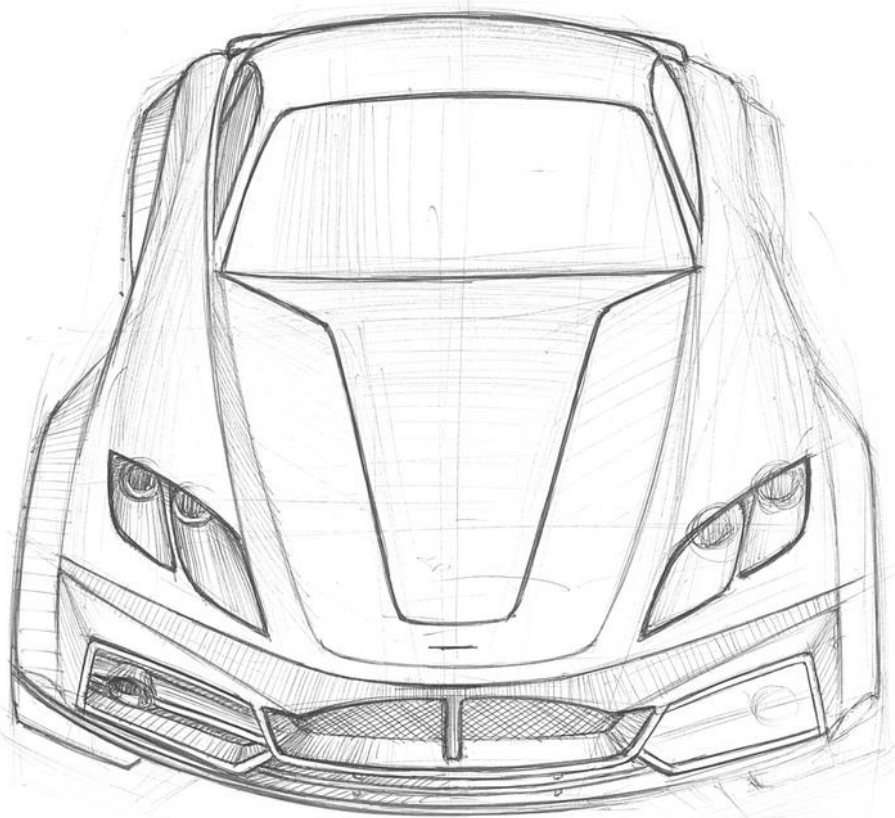

A NEW **ICON**

The Bufori CS8 redefines the essence of an Ultra High Performance Grand Tourer, a bold fusion of handcrafted luxury, advanced engineering, and exhilarating performance. Destined to stand as a symbol of individuality and innovation, it is more than a sports car; it is an icon in the making.

STYLING

The Bufori CS8 commands attention with its sculpted silhouette, a perfect balance of power and elegance. Every curve is purposeful, every line a statement, blending aerodynamic efficiency with timeless beauty. From its wide, athletic stance to the intricate handcrafted details, the CS8 is designed not only to perform but to captivate.

SCULPTED TO **PERFECTION**

COMMANDING CURVES

ATTENTION TO **DETAIL**

Every element of the Bufori CS8 reflects an unwavering commitment to perfection. From the precision of its handcrafted Carbon-Kevlar body to the meticulous stitching of its leather interior, nothing is left to chance. Each detail, no matter how small, is carefully considered and flawlessly executed, ensuring a driving experience that is as refined as it is exhilarating.

AN UNFORGETTABLE PRESENCE

DRIVEN BY
DISTINCTION

DESIGNED TO **DOMINATE**

Every angle radiates confidence and authority, from its wide stance to its sculpted proportions. This is a car that does not simply arrive, it makes an entrance. Designed to captivate and impossible to ignore, it embodies the perfect balance of elegance and power, ensuring its presence is felt wherever the journey leads.

LEAD WITH
ELEGANCE

A LASTING IMPRESSION

FORCE UNLEASHED

At the heart of this machine lies an intercooled and supercharged V8, effortlessly delivering relentless power with refined precision. Built on a forged engine foundation for maximum strength and durability, it is designed to withstand the demands of ultra-high performance driving.

6.4L V8 Supercharged

Power

810 hp

Torque

973 Nm

Power at the wheels

750 hp

Top Speed (limited)

320 km/h

SMOOTH OPERATOR

The CS' High Performance 8-speed electronically controlled transmission offers smooth, responsive, and efficient performance. It adapts throttle and shift patterns to suit every driving condition, delivering rapid acceleration with refined power delivery and reduced noise, vibration, and harshness. For a more dynamic drive, Sport & Track Modes enables manual shifting via paddle shifters or seamless automatic operation.

MASTERING THE ASPHALT

Handling and comfort are assured through a sophisticated suspension system engineered for precision and adaptability. At the front, an independent short long arm (SLA) design with an upper "A" arm and adjustable coil-over shocks provides sharp responsiveness and confident cornering, while the rear five-link independent suspension with adjustable coil-over shock absorbers delivers outstanding stability, balance, and refinement across every driving condition.

Complementing this dynamic setup, the undercarriage features a fully aerodynamic subfloor that extends seamlessly from the tip of the front splitter to the rear diffuser, maximising ground effects and traction for unparalleled road holding. Further enhancing this performance, the carefully sculpted diffuser geometry and rear end design work together to influence base pressure and optimise aerodynamic efficiency, ensuring both stability and control at high speeds.

PRECISION STOPPING

Confidence comes from control, and this is ensured by a Brembo high-performance braking system engineered for absolute precision. Slotted and ventilated floating rotors at both the front and rear provide optimal cooling and fade resistance, even under extreme conditions. At the front, six-piston monoblock fixed callipers deliver uncompromising stopping force, while the rear is equipped with four-piston fixed callipers to maintain perfect balance and stability. The result is consistent, responsive braking performance that inspires confidence on road and track alike.

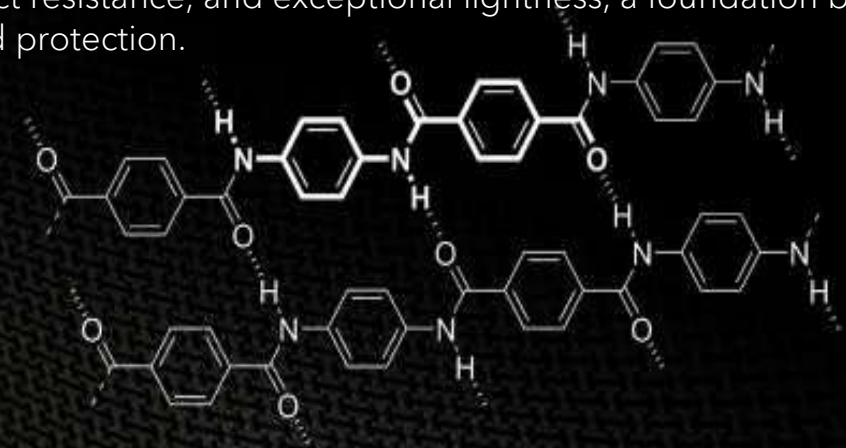

CARBON KEVLAR HYBRID COMPOSITE

For nearly four decades, Bufori has pioneered advanced composite car construction, perfecting the balance between strength and lightness. At its core lies a unique hybrid of Carbon Fibre and Kevlar, Carbon Fibre providing ultra-rigid, motorsport-grade performance, while Kevlar, seven times stronger than steel, adds resilience and shape memory. Woven into a distinctive weave and bonded with proprietary resin systems through cutting edge infusion techniques, this material delivers an exceptional strength to weight ratio and uncompromising structural integrity, ensuring the highest level of occupant safety.

In the CS8, the outer monocoque is formed from Carbon Fibre and Kevlar, while the inner reinforcements and inner monocoque are constructed entirely from Carbon Fibre. The result is a unified monocoque with outstanding torsional rigidity, remarkable impact resistance, and exceptional lightness, a foundation built for both performance and protection.

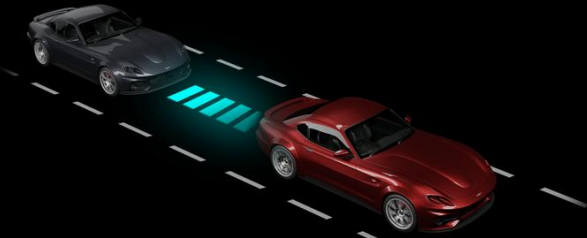

ADVANCED DRIVER AIDS

Lane Departure Warning

Alerts you during unintentional lane drifts and will help move your vehicle back into its lane.

Adaptive Cruise Control

Manages brake and throttle to keep a desired distance from preceding vehicle and can even brake to a complete stop, if necessary. This is

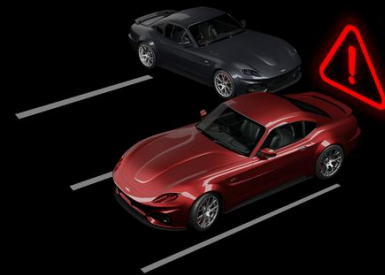

Forward Collision Warning

Alerts you when your vehicle gets too close to a preceding vehicle. If you don't react, it will brake your vehicle to help prevent a collision.

Blind Spot Monitoring

Helps you make safer lane changes. If the system detects a vehicle in one of your blind spot zones, it alerts you by lighting an icon in the exterior mirror.

Rear Cross Traffic Alert

Helps you monitor the hard-to-see angles to the left and right of your vehicle while backing out of a tight parking spot or driveway.

Front & Rear Park Assist

Uses ultrasonic sensors at low speed to detect stationary objects in front of and behind the vehicle.

EXQUISITE CRAFTSMANSHIP

A dramatic, low-key photograph of a welder in a dark industrial environment. The welder is wearing a blue protective suit and a mask, with a bright blue and white welding arc illuminating their face and the surrounding area. A shower of bright orange sparks is being ejected from the welding point. The background is dark, with some industrial structures and lights visible, creating a sense of depth and atmosphere.

ARTISAN LEGACY

BEYOND BESPOKE

No two creations are ever the same, each one is shaped to embody the individuality of its owner.

With near limitless possibilities, we invite you to define your ultimate Grand Tourer. Select from an extensive palette of exterior finishes, bespoke interior treatments, and exclusive materials. Whether it is custom leather tones, unique stitching details, or handcrafted carbon fibre, every detail is designed to reflect your personal taste.

What emerges is not just a sports car, but a true extension of your personality, crafted precisely to your vision.

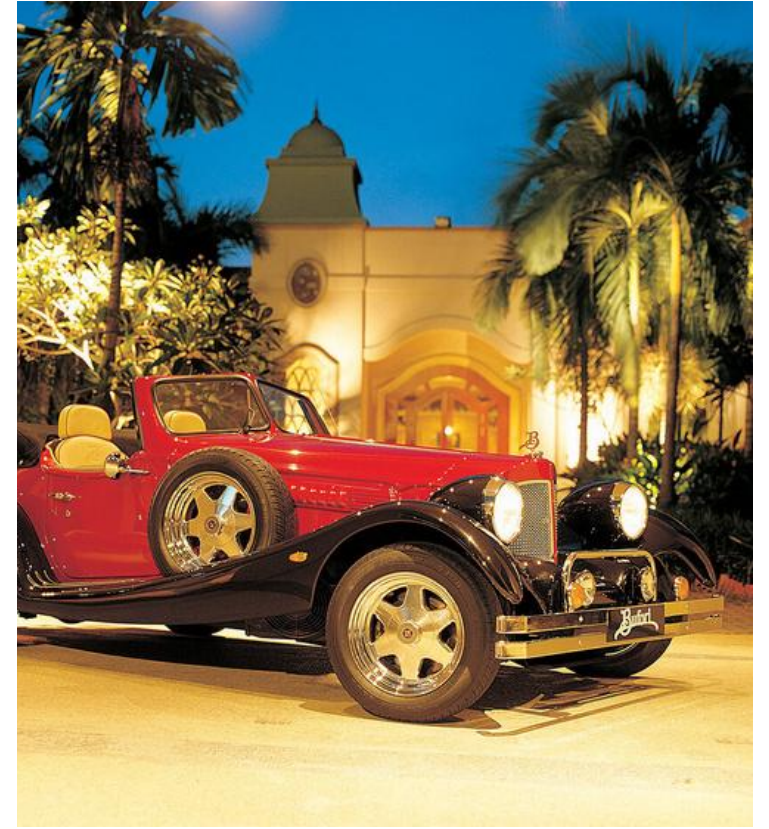

A LABOUR OF **LOVE**

Every masterpiece begins with passion, and this creation is no exception. Behind each curve, stitch, and detail lies the dedication of craftsmen who pour their heart and soul into their work. It is a process defined not by shortcuts, but by patience, precision, and an unwavering commitment to perfection. More than engineering, it is artistry, a true labour of love that transforms vision into reality.

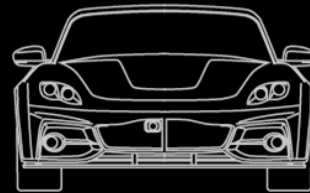

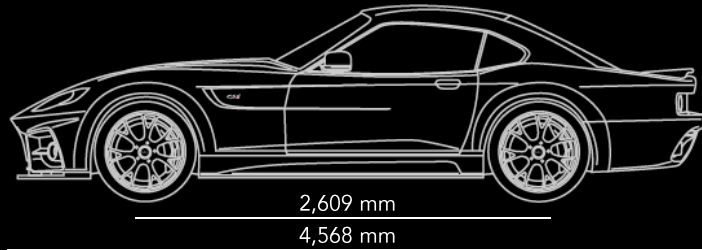

A TALE OF **PASSION**

Every story has a beginning. For Bufori, it started in 1986 when 21-year-old Gerry Khouri, driven by curiosity and determination, built his first handmade car in Sydney. Impressed, his brothers Anthony and George followed suit. Soon, strangers were offering to buy the cars, sparking the creation of the Bufori Motor Car Company. What followed was a journey of triumphs and trials, defined by resilience and relentless pursuit of excellence. Over the decades, Bufori has continued to raise the bar, fuelled by the unwavering passion, dedication, and perseverance of its people.

SPECIFICATIONS

DIMENSIONS & WEIGHT

Length:	4,568 mm
Wheelbase:	2,609 mm
Track (front/rear):	1,619 / 1,705 mm
Overhang (front / rear):	873 / 1,085 mm
Width:	2,030 mm (incl. mirrors)
Height:	1,292 mm
Kerb weight:	1,550kg (subject to spec)
Weight Distribution:	25% on each corner
Fuel tank:	100 litres
Boot volume:	252 litres
Wheel Size:	19" Forged alloy

STANDARD ENGINE & DRIVETRAIN

SPECIFICATIONS

BODY

- 2 door 2 seater ultra high performance GT.
- Carbon fibre and Kevlar hybrid composite monocoque body.
- Integrated Modular Stainless Steel Spaceframe Chassis.
- Integrated 10 point Roll Cage.

INTERIOR

- Remote keyless entry.
- Exposed Carbon-Fibre, hand-stitched leather & microfibre interior, customisable
- One touch operated electric windows. Auto-dimming interior rear view mirror.
- Automatic digital climate control air conditioning with heater.
- Electrically adjustable 8-way Recaro sports bucket seats with 4-way lumbar support.

SUSPENSION

- Independent Short-Long Arm (SLA) front suspension with upper "A" arm and adjustable coil over shock absorbers.
- Five-link independent rear suspension with adjustable coil over shock absorbers.

STEERING

- Power assisted rack & pinion with power adjustable steering column with memory.
- Left hand drive (LHD) or right hand drive (RHD).

PERFORMANCE BRAKE SYSTEM

- Vented & slotted floating rotors, front 380 x 34mm, rear 350 x 28mm.
- Brembo 6 piston monoblock fixed callipers front, 4 piston monoblock fixed callipers rear.
- ABS, ESC, TCS and EBD.
- Electronic park brake.

WHEELS AND TYRES

- Forged alloys, 19" x 9.5" front 19" x 10.5" rear
- Michelin PS4S tyres, 275/35 R19 front and 315/30/R19 rear.

SAFETY & CONVENIENCE

- Supplement Restraint System (SRS): Front multi-stage airbags and pre-tensioned seatbelts.
- Impact absorbing body with crumple zones.
- Full LED lights.
- Tyre inflation kit, First-Aid Kit & Warning Triangle.

STANDARD EQUIPMENT

- Metallic or solid single tone colour.
- Bufori Premium Collection Italian leather.
- Push button engine start & remote engine start.
- Front & rear parking distance control with active front & rear parking camera.
- Digital tyre pressure monitoring system (TPMS).
- Built-in Smart Tag reader (Malaysia only)
- 13.6" LCD touchscreen with Apple Carplay or Android Auto with built-in WiFi / Hot Spot.
- High-end 6.1 surround sound audio system.

PERFORMANCE FEATURES (only CS8)

- Launch Control.
- Advanced Data Logger to record and analyse real time car performance data such as vehicle speed, acceleration, ¼ mile, 1/8 mile, de-acceleration, braking distance, G-forces.

LUXURY OPTIONS

- Special effect body colours.
- Bufori Exclusive Collection Italian Bull leather.
- Luxury seat pack with massage, heating & cooling.
- Personalisation such as embroideries, embossing, custom scuff plates, etc.
- Black anodized brightwork

OPTIONAL ADVANCED DRIVER AIDS

- Semi-autonomous package with Adaptive Cruise Control, Lane Departure Warning, Blind Spot Detection & Lane Assist.
- 360 degree Birdseye View Camera with recording.

Bufori

STATEMENT OF PRIDE

IMPORTANT NOTICE: Bufori Motor Car Company (M) Sdn Bhd is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this document should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for sale of any particular vehicle. Performance results may vary depending on the specifications of the particular vehicle, road and environmental conditions and driving style. Published figures should be used for comparison purpose only and should not be attempted on public roads. The Bufori Motor Car Company (M) Sdn Bhd strongly advises that all speed laws must be obeyed and the safety belts worn at all time. Happy Motoring.
